

CENTRSVET

AUROOM
LIGHTING
SYSTEM

CENTRSVET is a Russian lighting company.

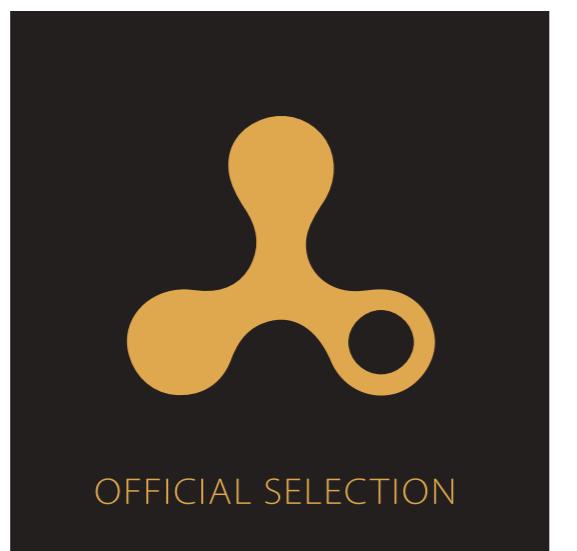

It was founded by spouses and partners Evgeny Schegolev and Natalia Schegoleva. Since 2005, we have been designing and manufacturing modern, aesthetical and the most high-tech lighting alongside with a team of like-minded people.

We believe that light is at the center of everything, and form a new world standard of design, technology and quality service in the lighting industry.

AUROOM LIGHTING SYSTEM

Auroom lighting system is made of 100% brass. Low-voltage 48V and safe. Easy surface-mounting allows to install the systems on all types of ceilings and surfaces, during all stages of renovations. No limitations to the size or configuration. The system allows choosing different luminaires and their quantity: basic, with directional/diffused lighting, pendant. Brightness adjustment with DALI or CENTRSVET SMART LIGHT mobile app from your smartphone or smart watch via Bluetooth.

The system has received numerous top international awards.

Copyrighted and has no analogues in the world.

5 year international warranty.

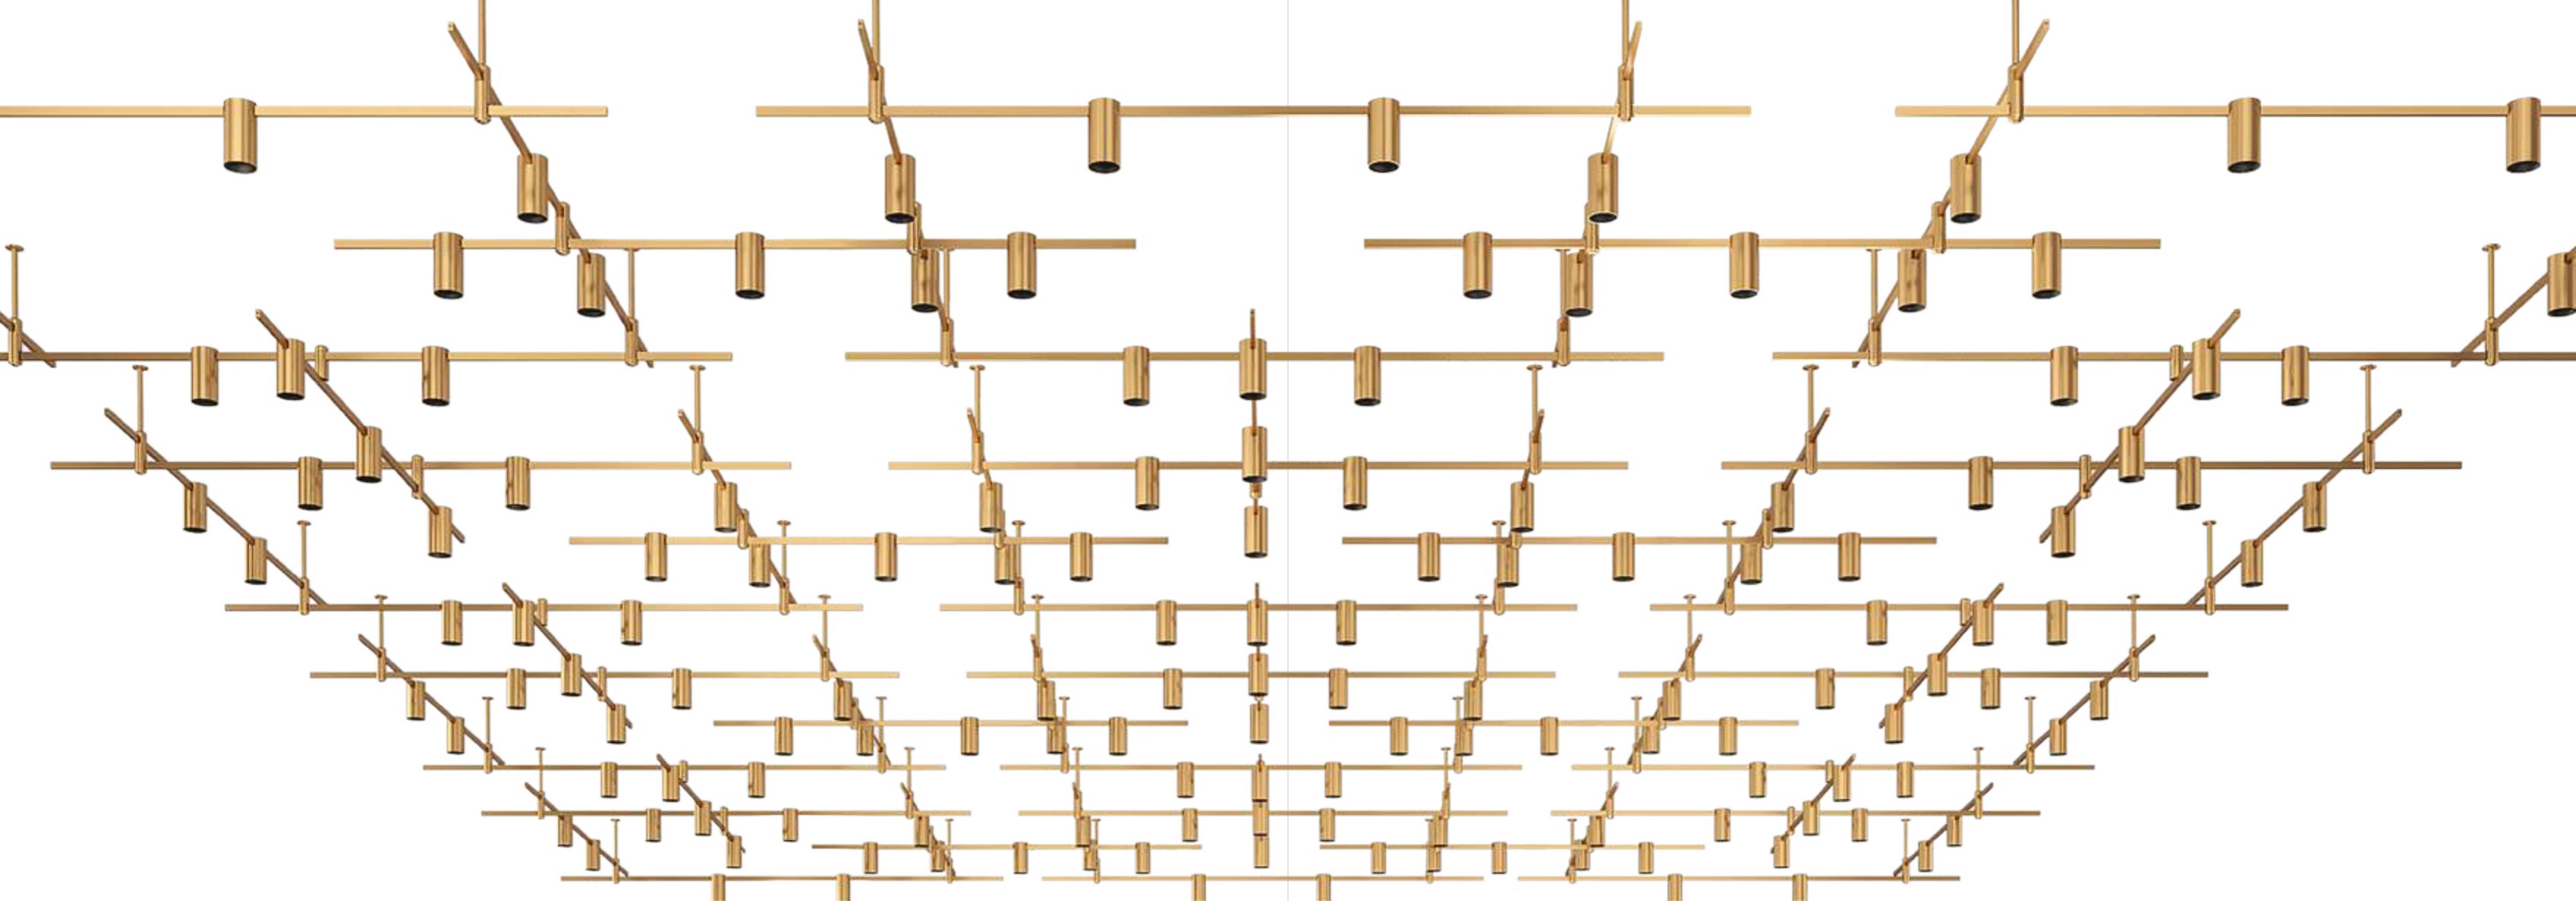

Designed by Centrsvet.

QUALITY MATERIAL

The whole system –
track, connective elements, luminaires
are made of 100% brass.

INFINITE CONFIGURATIONS

The track can be cut off at any point
to create a system of any configuration.

LARGE AND VERY LARGE RINGS

Warehouse program: 880 mm, 1200 mm, 1500 mm, 1800 mm.

We can manufacture a ring of any diameter upon request.

100% BRASS IN GOLD

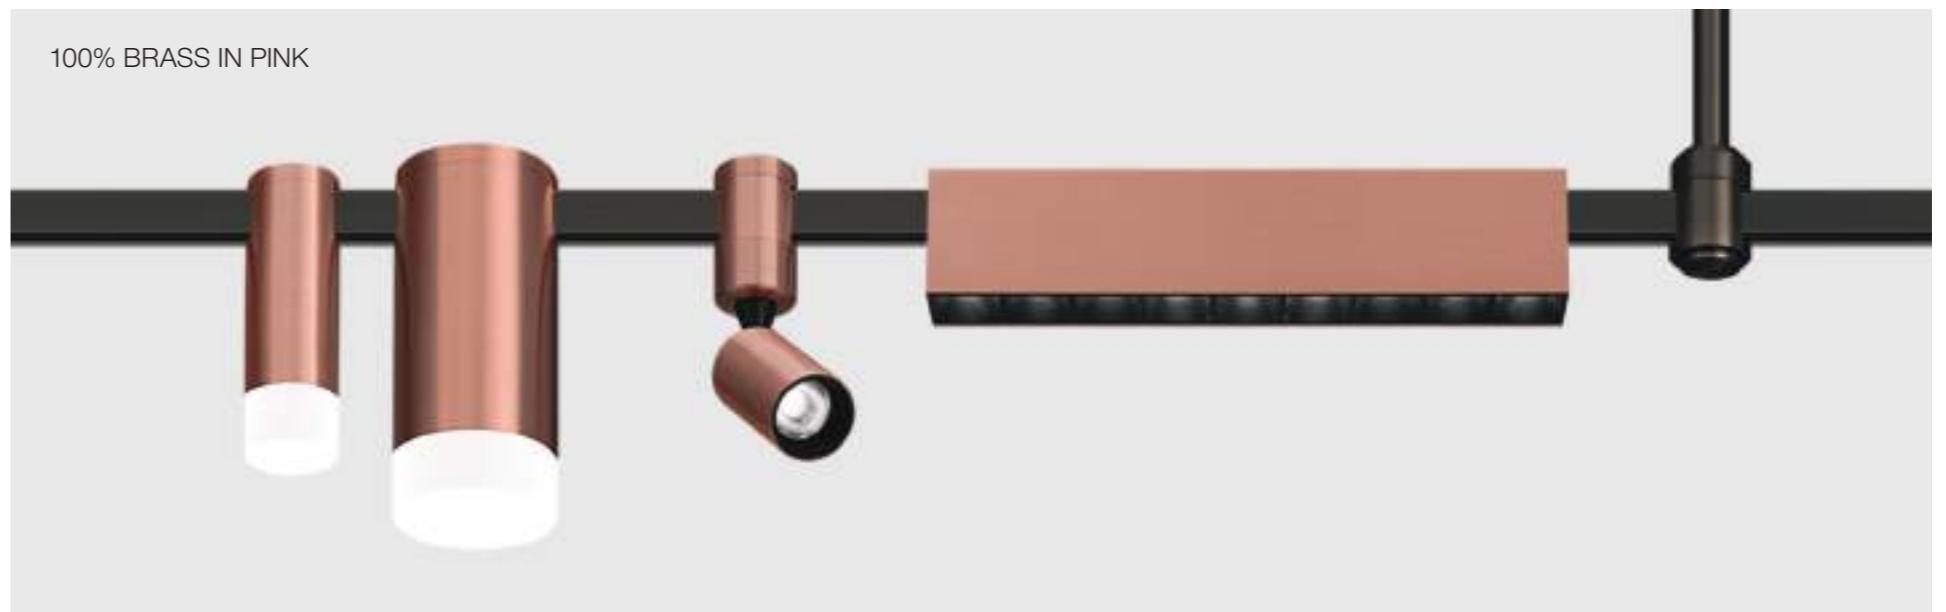

DESIGNER FINISH

Auroom lighting system
is represented in four collections.

100% BRASS IN BLACK

100% BRASS IN PINK

100% BRASS IN SILVER

CENTRSVET

is our collaboration with world-renown
Karim Rashid and Dima Loginoff,
Auroom PINK + Karim Rashid
specially for

SUPERIOR

design industry stars like
who created capsule collections
and Auroom BLACK X Dima Loginoff
Centrsvet.

CENTRSVET SUPERIOR by Dima Loginoff,
a world-renown Russian designer.

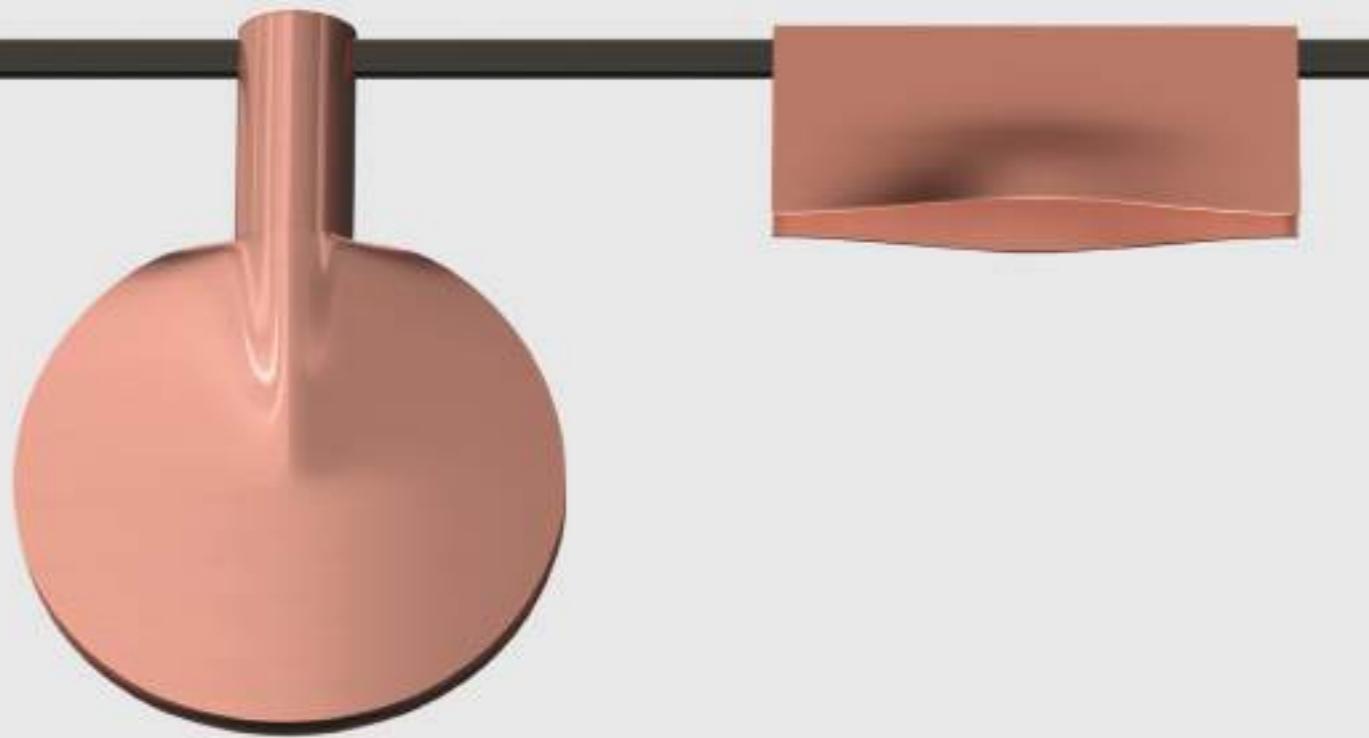

Dima is the winner of numerous international awards. The objects he created by designer decorate not only private residences, but also famous commercial spaces, and can be seen everywhere in the world.

Dima Loginoff created a capsule collection of luminaires specially for Auroom lighting system. «A little bit of irony and mischief. Fun and playful shapes of the luminaires will provoke different associations in different people», – Dima says with a smile. «This design will surely add a touch of intrigue to the interior».

CENTRSVET SUPERIOR by Karim Rashid,
a world-famous industrial designer from New York.

Karim has launched over 4000 designs, including furniture,
accessories, lighting appliances, and architectural projects.

«I created unique designs for AUROOM lighting system using pure
geometry married with organic forms, with function being always
inseparable. My desire was to materialize the immaterial 'light'. May they
inspire your environments with my signature Sensual Minimalism».

Globalove, Karim
